Traffic Lights

By Mallory

Have you ever noticed traffic lights? I think traffic lights are interesting.

I like watching them when I am riding in the car.

Traffic lights come in three colors.
They are red, green and yellow.

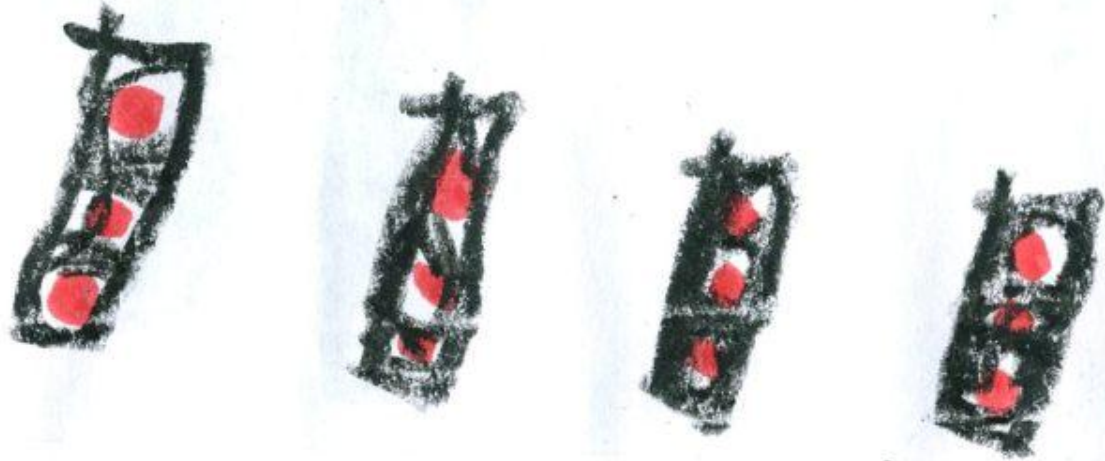

Red means stop. Green means go.
Yellow means slow down.

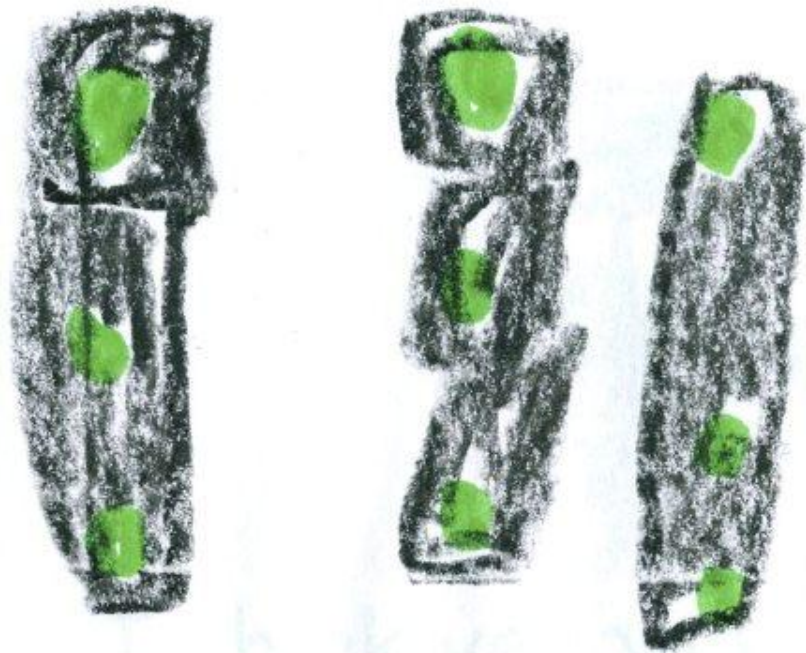

Why are traffic lights these colors?

Super! Red

I think red is a super traffic color because it can catch your eyes so you STOP.

Green!

I think green is a great traffic color because it is a dark color which you can't see so you just GO.

Yellow!

I think yellow is a funky traffic color because it makes people want to SLOW down like a robot turning off.

I think traffic lights are fantastic!
I can hardly wait until I drive a car!
